PTC-CSJ Foundation donates books to NUEST

Capt. Florencio Jampil, Business Development Director for Crewing and Shipmanagement, represented the PTC CSJ Foundation and turned over 100 books to the Nueva Ecija University of Science and Technology (NEUST) for its library. Ms. Consuelo J. Estigoy, NEUST University Librarian, together with Atty. Eric G. Claudio, Director, Office of International and Domestic Institutional Linkages, and Dr. Arnold Dela Cruz from the College of Information and Communications Technology received the books during the turnover.

NEUST believes that every educational advancement depends on its resources and that the fundamental role of the library is to aid in learning. With the additional books received from the Sta. Catalina School in California through the PTC CSJ Foundation, NEUST will continue to share these with all the students at the university and members of the administration including other students from neighboring schools.

After the short turnover ceremony, the PTC Talent Acquisition Group together with the Monique Calo of the PTC Aviation Training Center and Jamaica Magno of PHILCAMSAT took the opportunity to present TAG's willingness to partner with NEUST and to offer training programs for their graduating students.
