*PTC and PTC-CSJ  
donate desktop  
computers to  
deserving students*

PTC and PTC-CSJ Foundation donated 15 refurbished desktops through Synergeia Foundation's campaign to distribute old but still usable computers to students from disadvantaged families in Metro Manila.

Synergeia completed the distribution of the desktops last March. With almost all of the 15 beneficiary families having at least two children in school, a total of 34 students now use the desktops for their blended learning at home.

One beneficiary, a single mom, said, "I have two daughters in grade school. I usually just borrow my friend's mobile phone or go to a computer shop to download my daughters' online modules. This desktop truly is a very big help. Thank you very much."
