

## *PTC-CSJ spreads early Christmas cheer through Feed and Read initiative*

PTC-CSJ Foundation, with generous support from external and internal donors across the PTC Group, spread some early Christmas cheer to 1,000 undernourished Grade 1 public school students and their families.

Through its *Feed and Read* initiative, PTC-CSJ provided the students and their families with food packs, including PTC premium rice and Jollibee frozen chicken *guisado* packs. They also received vegetable seeds that can be planted to help sustain their daily needs. Each student also received an Adarna storybook.

The Christmas gift packs were distributed to all beneficiaries last November 23 through the Foundation's ten partner public elementary schools in Muntinlupa City.

*Feed and Read* is consistent with the Foundation's thrusts to address malnutrition and to promote literacy and love for reading. It is a part of the Foundation's Growing Good to Great Kids or 3G Program that has been implemented in Muntinlupa's public elementary schools since 2011.
