

Planting the seeds for a sustainable future with ACM, PTC RED and Project RISE

PTC RED personnel and members of the Project RISE team along with residents of ACM's PTC communities planted 200 tree seedlings in Imus, Cavite on August 5. The initiative is part of ACM's commitment to plant 1,000 trees by the end of the year in celebration of its 30th anniversary. The company has planted 360 seedlings to date.

After the tree planting activity, a symposium was held where Project RISE's advocacy for developing resilient communities was introduced to the homeowners.
