Strengthening PTC's talent pool with NEUST

PTC's Talent Acquisition (TA) team visited the Nueva Ecija University of Science and Technology (NEUST) to promote and present opportunities for its students who wish to build global careers with the PTC Group.

Atty. Eric G. Claudio, Director of NEUST's Office of International and Domestic Institutional Linkages, was very happy with the partnership opportunities presented by the PTC TA team and is optimistic that this will be very beneficial for its more than 27,000 students in the fields of nursing, engineering, IT, hospitality management, and tourism. Atty. Claudio added that NEUST is regarded as among the top nursing schools in Region 3.

The TA team continues to source, generate leads, and attract talents not just to fill current positions needed at PTC but to ensure a steady stream of individuals that will contribute to the sustainability of the PTC Group.
